

ONLINE TRAININGS FOR PRINTING PRESSES

Professional training via chat and video conference

Why W&H Online Trainings?

Effective, flexible and location independent - benefit from the extensive know-how of our experienced trainers even from the distance. In our online training courses, we provide in-depth expert knowledge live over the internet. Via chat and videoconference, you can exchange personal information with our experts at any time.

Our offer covers everything from training for the operation and maintenance of W&H machines to process engineering basics. We always combine theoretical basic knowledge with practical application examples. If you cannot find the training you are looking for, we will be pleased to address your individual needs and develop a training course tailored to your needs.

Use the time now for your professional development - on the road, in your home office or at your workplace.

Your advantages

- ✓ Convenient online training at work, from home or on the road
- ✓ Learning from certified trainers with many years of practical experience
- ✓ Direct communication and personal consulting
- ✓ No travel time and costs
- ✓ High flexibility and short term booking
- ✓ Development of individual online trainings tailored to your specific needs

W&H TRAINING

In a W&H training course, you will receive practice-oriented training based on a fixed learning concept and with clearly defined learning objectives. You benefit from qualified trainers with many years of practical experience.

Professional product and application knowledge go hand in hand in our training courses.
