

ALPHAFLEX

Redefining entry-level performance

Why ALPHAFLEX?

- Run 500 m/min – even with complex designs**
 Zero bounce technology – proven in our high-end presses – now brought to the entry-level class. With re-engineered print decks designed for maximum stability, this breakthrough lets you handle demanding designs without slowing down production. 500 m/min at consistent, top quality is no longer a theoretical maximum, but the new standard.
- Defines a new class – and a new promise**
 With the ALPHAFLEX we set out to create a compact press that delivers true impact in daily production – combining performance, efficiency and ease of use in a way not seen before in this segment. Reduced to the max – yet fully W&H. It redefines entry-level flexo and sets new standards in this class.
- Rookie or expert – same quality, every shift**
 The ALPHAFLEX makes operation straightforward. Its advanced design, combined with W&H's EASY Setup, guides the operator step by step through the setup process. The result: reliable changeovers with less effort – turning complex tasks into a simple, consistent routine.

Your advantages

- ✓ A new level of performance: 500 m/min
- ✓ Simple, intuitive press operation and automatic register and impression setting
- ✓ Suitable for PE or PP mono-materials, PCR or paper with up to 120 g/m², solvent- or water-based inks
- ✓ Saves up to 25% drying energy

Technical Data

ALPHAFLEX

Color decks	8
Printing width	820 – 1270 mm (32.25" – 50")
Repeat length	max. 800 mm (31.5")
Press speed	400/500 m/min (1300/1640 ft/min)
