

AD 8360

The bottomer for all sacks

AD 8360

Why AD 8360?

Versatility:

- The AD 8360 runs sacks for all applications: from cement to minerals, from food to chemicals and more.

High Output:

- Fast job changes are realized easily as the AD 8360 comes with automated tool settings and an integrated job management system.
- The new paste pad drive system reduces set-up times and it provides perfect paste patterns with automated machine adjustments.
- 300 sacks/min means high speed production. Outstanding speeds are gained with all sack designs.

Sack Quality:

- The AD 8360 provides state of the art sack quality at every speed level.
- Our robust and well proven paste pad application system is used at the AD 8360.

Your advantages

- ✓ High degree of customization to run all your sacks
- ✓ Fast job changes with automated tool set-up and job management system
- ✓ High production speeds of up to 300 sacks/min
- ✓ State of the art sack quality at every speed level
