

ONEFLEX

The One for Flexible Packaging

Why ONEFLEX?

- Advanced print stability**
 A rigid, stable printing unit delivers repeatable print quality and consistent results under demanding production conditions.
- World-class handling**
 Less lifting and fewer manual steps reduce physical strain for operators and support safe, consistent operation across shifts.
- World-class safety**
 The safest CI flexo press we have ever built, reducing handling risks, preventing unplanned stops, and supporting robust, repeatable operation across shifts.
- More sustainable production**
 Energy-efficient drying and significantly reduced energy consumption for a smaller footprint, while stable processes maximize resource-efficient production.
- Modularity**
 ONEFLEX can be configured around application requirements, job mix, and production targets. Built on the newest technology platform, it can be expanded as requirements evolve.

Your Advantages

- ✓ Exceptional print quality, powered by high stability
- ✓ World-class safety
- ✓ Lower CO₂ footprint through energy efficiency and reduced energy consumption
- ✓ Modular platform, configurable and expandable
- ✓ Reduced manual handling, less physical strain

Technical Data

Color decks	8 or 10
Printing width	1000 mm (39.4 in) 1270 mm (50 in) 1450 mm (57 in) 1650 mm (65 in)
Repeat length	800 mm (31.5 in) 1050 mm (41.3 in)
Press speed	500 m/min (1640 ft/min) 600 m/min (1960 ft/min)
